The graphic features the title "SPRING LOGIC PROBLEMS" in large, bold letters. Below it, "Bundle 160 PUZZLES" is written in a mix of cursive and bold fonts. A teal circle highlights the number "160". Two sample puzzle cards are shown. The first card, labeled "2", has the instruction "Find the value for each symbol." and shows three equations: a yellow flower plus a purple flower equals 720, a purple flower plus a purple flower plus a purple flower equals an unknown, and a yellow flower plus 140 equals an unknown. The second card, labeled "1", has the instruction "Find the value" and shows three equations: 3.8 minus a green leaf equals a green leaf, a ladybug plus a green leaf equals 4.4, and a green grass tuft minus a ladybug equals 6.6. The name "SHELLEY GRAY" is at the bottom of each card.
