

EARTH DAY

MATH CONVERSATIONS

SHELLEY GRAY

How many flowers are there altogether? Explain your strategy for finding the total.

What if the number of flowers were doubled?

My strategy is...

I wonder...

I notice...

I disagree because...

Here's what you can expect inside this
special

Earth Day version
of Math Conversations

Earth Day Math Conversations is designed to help your students:

build number sense

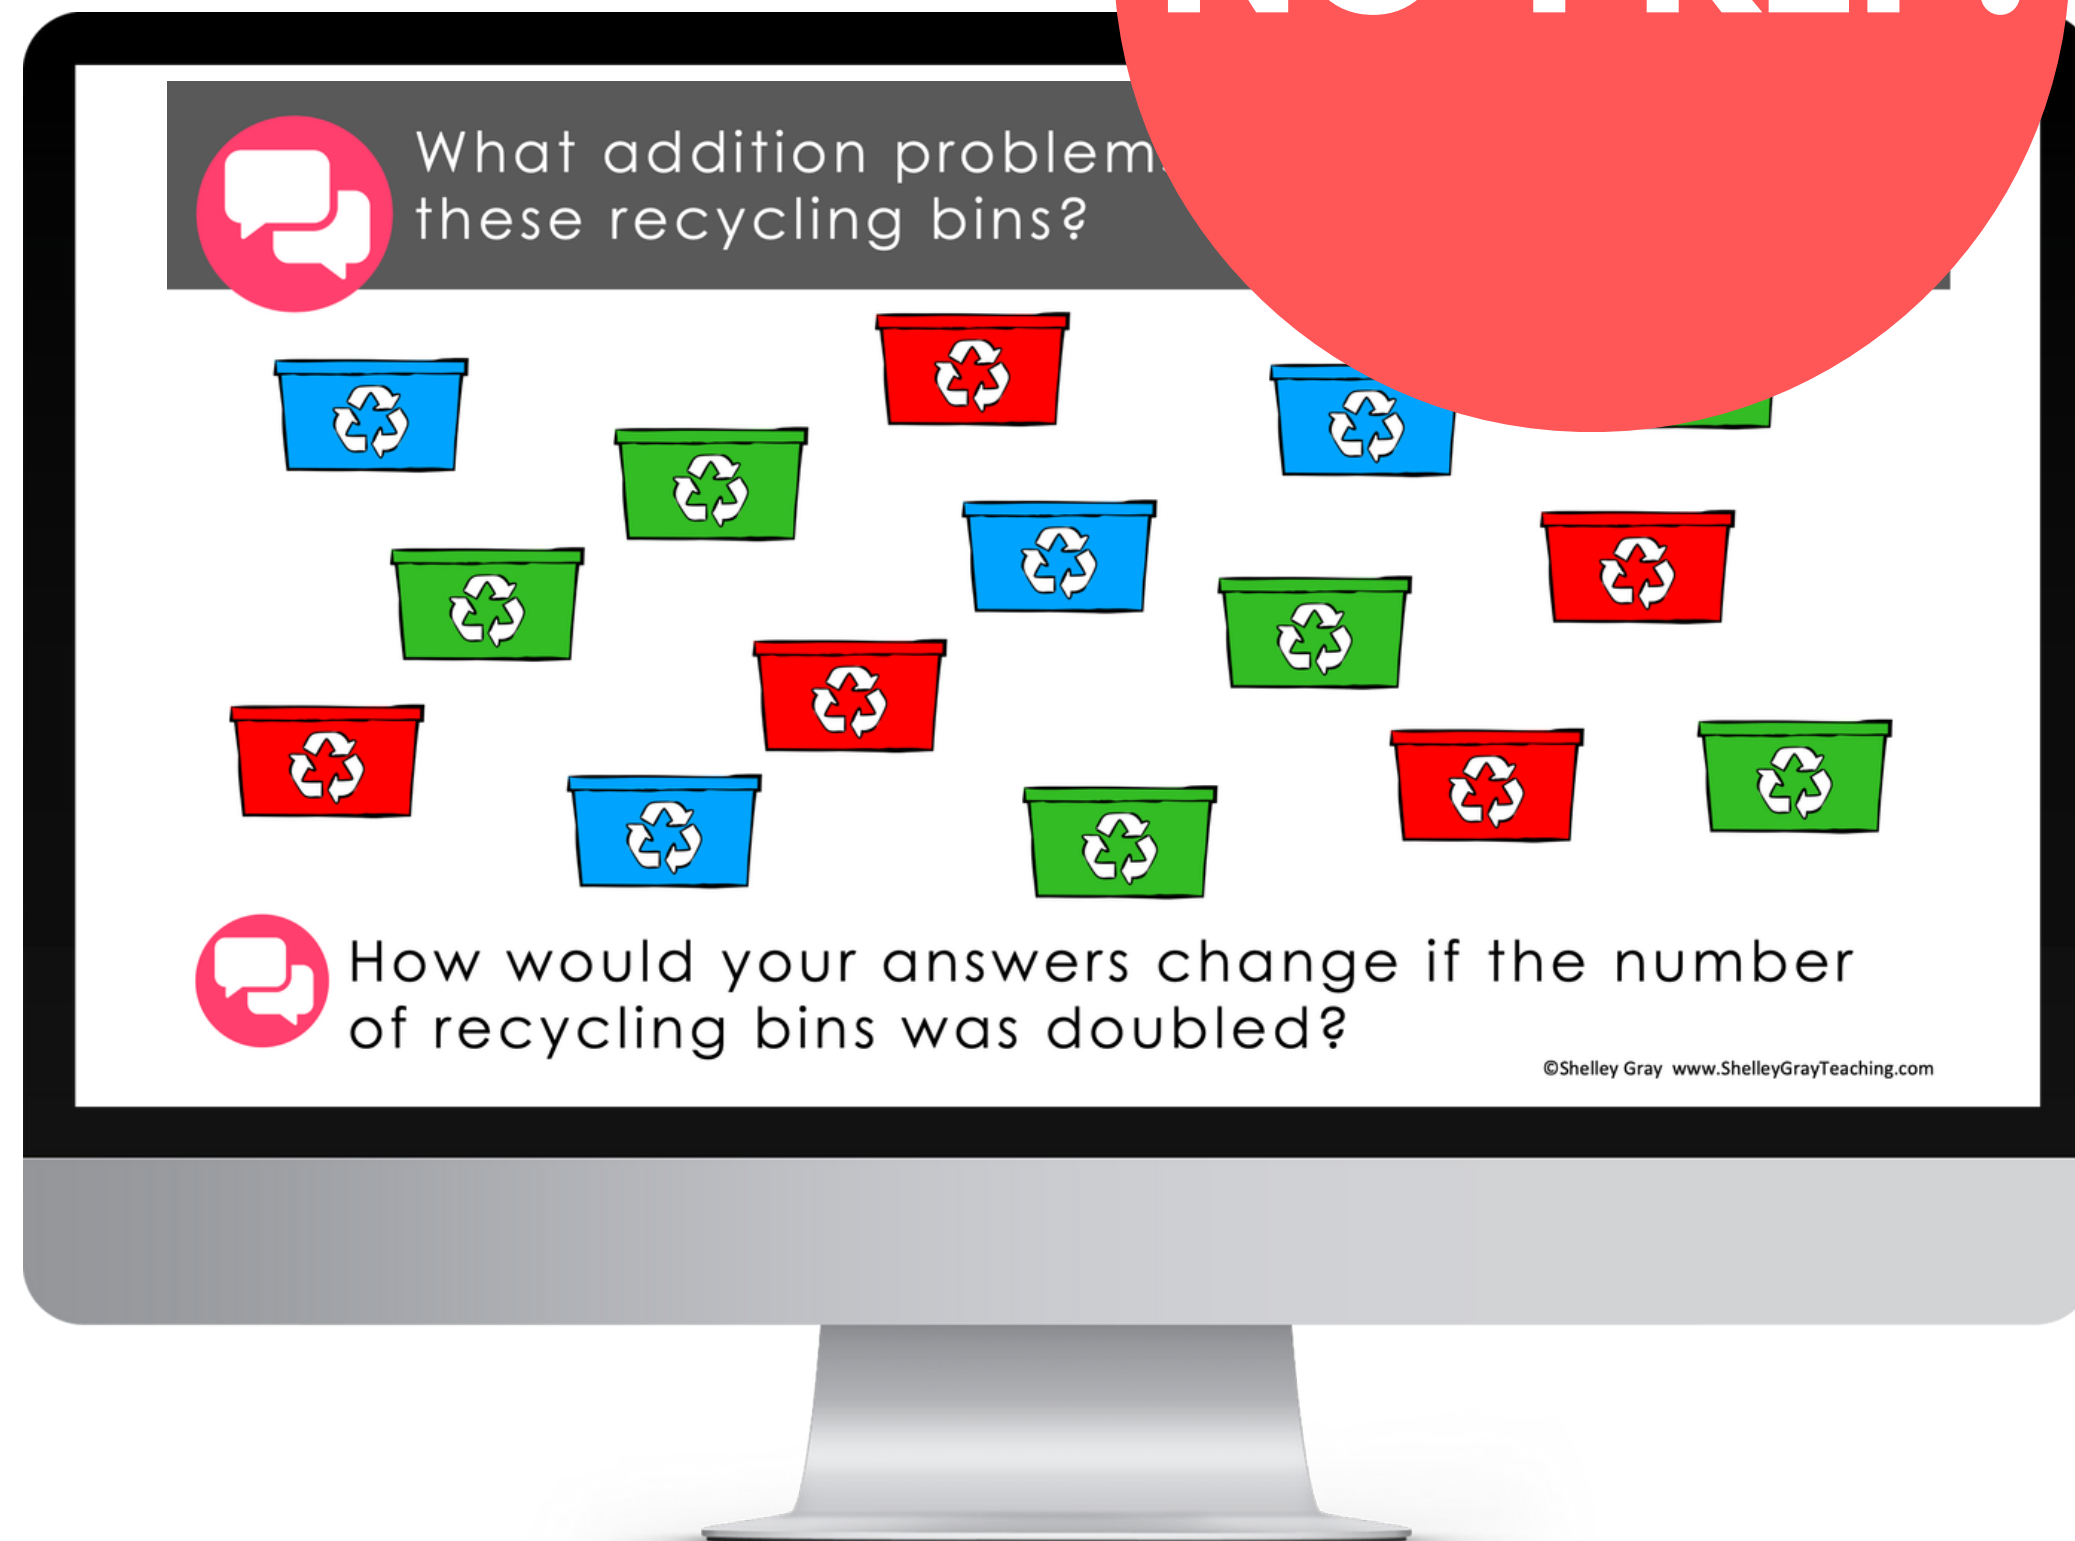

become strategic and flexible thinkers

boost math confidence

with a fun Earth Day theme that will keep students engaged all April long!

NO-PREP!

This resource includes **20 number talks** that reinforce flexible and strategic thinking, connections, and much more.

The main goal is to get you and your students **talking about math** and realizing that math is not all about right answers – it's about **thinking in different ways!**

The slides are completely ready to go - **NO PREP!**

Just choose a slide and discuss as part of your daily math routine or number talk!

How many do you think are covered? How do you know?

How could you figure out the number of newspapers without counting one by one?
