

FACT FAMILY ARRAY TASK CARDS

SHELLEY
GRAY

FOR MULTIPLICATION AND DIVISION

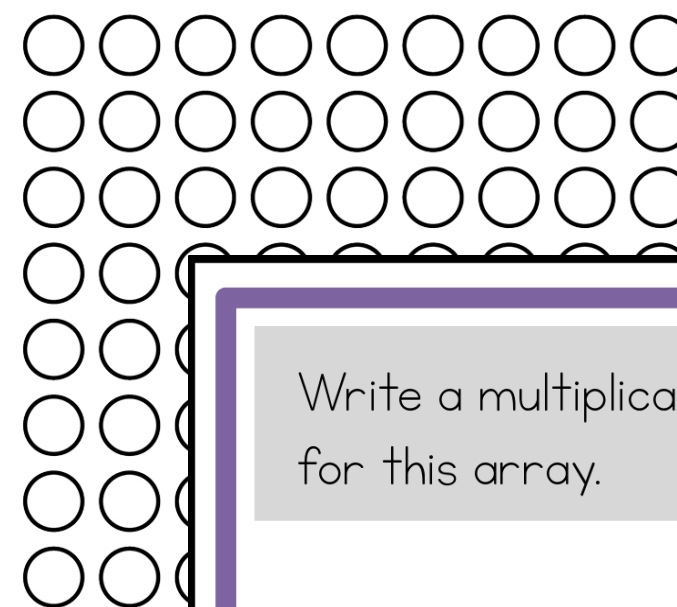

Are you teaching

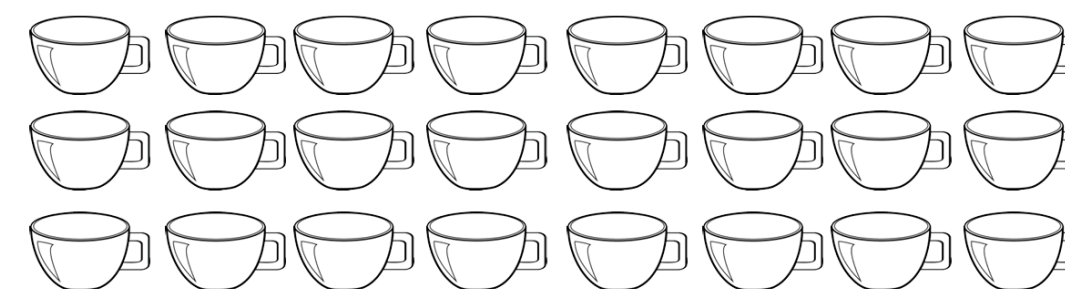

*basic multiplication
and division facts?*

Visuals are an important part of building deep understanding of operations. These task cards provide visual arrays so students can easily see how multiplication and division are connected.

Write a multiplication and division fact family for this array.

Write a multiplication and division fact family for this array.

Fact Family Arrays: Task Card #5

**24
TASK
CARDS**

These task cards will support your teaching of multiplication and division for **understanding** and **flexibility**, rather than for rote memorization.

Here's what's included:

24 task cards

recording sheets to help students stay organized

an array reference poster for the classroom
