

USING FRIENDLY NUMBERS TASK CARDS

SHELLEY
GRAY

3 AND 4-DIGITS PLUS 1-DIGIT

What could you add to each number to make it “friendly?”

Number	I could add:	Friendly Number
48		
2897		
126		

Using Friendly Numbers Task Cards: Card #1

Solve the equation using the friendly number strategy.

$436 + 8 = \underline{\hspace{2cm}}$

Using Friendly Numbers Task Cards: Card #2

Solve the equation using the friendly number strategy.

$3886 + 9 = \underline{\hspace{2cm}}$

Using Friendly Numbers Task Cards: Card #3

Are you teaching
*addition with 3 and
4-digit numbers?*

Get strategic with addition
instruction in your classroom!
Reinforce friendly numbers in
different ways with these task
cards.

Show how you could use the number
line to solve $487+6$ with the friendly
number strategy.

$$\begin{array}{r} + \\ 487 \end{array}$$

Using

Solve the equation using
number strategy.

$$2556+7=\underline{\hspace{2cm}}$$

Using Friendly Numbers Task Cards: Card #6

**24
TASK
CARDS**

These task cards will support your teaching as you teach addition for **understanding** and **flexibility**.

Here's what's included:

- ✓ 24 task cards
- ✓ recording sheets to help students stay organized
- ✓ answer key for easy self-checking
