

MULTIPLYING 2-DIGIT NUMBERS TASK CARDS

SHELLEY
GRAY

BY MULTIPLES OF 10, 100 & 1000

Solve the problem.

There are 60 rows of chairs with 20 chairs in each row. How many chairs are there in all?

Two Digit By 10, 100, 1000 Task Cards: Card #1

Solve:

$$200 \times 20$$
$$40 \times 40$$

Two Digit By 10, 100, 1000 Task Cards: Card #2

Which equation is true? How do you know?

$$12 \times 300 = 3600$$
$$12 \times 300 = 360$$
$$12 \times 300 = 36,000$$

Two Digit By 10, 100, 1000 Task Cards: Card #3

Solve the problem:

200 kids went on the zip line today at the adventure park. Each kid paid \$12. How much money was earned at the zip line today?

Two Digit By 10, 100, 1000 Task Cards: Card #4

Are you teaching
multiplication?

If you're teaching common place value patterns for multiplication, these task cards have been designed so your students will receive practice multiplying 2-digit numbers by 10s, 100s and 1000s in many different ways.

Predict: Which equation will have a higher product? Then solve each equation to see if you were right.

12×400

Fill in the missing factor.

$50 \times \underline{\hspace{2cm}} = 600$

$\underline{\hspace{2cm}} \times 700 = 7700$

$\underline{\hspace{2cm}} \times 80 = 6400$

Two Digit By 10, 100, 1000 Task Cards: Card #6

24 TASK CARDS

These task cards will support your teaching of multiplying 2-digit numbers by 10s, 100s and 1000s for **understanding** and **flexibility**.

Here's what's included:

24 task cards

recording sheets to help students stay organized

answer key for easy self-checking
