

ADDITION STRATEGIES

Task Cards:

PLUS 7, 8, 9

Sums to 1000

About this Resource

This resource includes 24 task cards to reinforce the plus seven, eight, and nine strategy for addition. Students will use these task cards to practice these facts (up to 1000) in a variety of different ways, including missing addends, ten frames, number lines, problem-solving, number charts, and more.

Are you looking for even more support with teaching addition strategies in your classroom? The Addition Station will transform your teaching, allowing your students to master addition facts and strategies at their own pace. Find the Addition Station here:
