"Without a doubt, the best thing I have purchased from TpT -- no lie. I actually cried when I saw the QUALITY of the tasks. There is NO busywork at all in this packet. Every task is aligned with the Common Core and I have found them to be challenging enough to keep my fast students engaged and happy, and fun enough to make others want to finish their work faster to be able to participate. The quiet engagement of my students makes this product priceless -- a bargain at TWICE the price. Thank you, thank you, THANK YOU!!!!"

-Kathleen L.

"I am so pleased with how well my students are using this board. They love the choices and enjoy putting all their work in a journal. I just collect them once a week or so, to see what the students have been doing. It has been a hit in my class. My principal came into my room the other day and said, "What a clever idea." Thanks so much."
