

EARTH DAY

Task Cards

How could you re-use a tin can? What would you create? Draw a labeled diagram.

Earth Day Task Cards-Card #6

Conserving water is an important part of taking care of our Earth. What are two ways that you could save water at home?

Earth Day Task Cards-Card #3

Earth Day is celebrated on April 22. About how many months or days are there between your birthday and Earth Day?

Earth Day Task Cards-Card #1

Explain why riding your bike or walking is good for the environment.

Earth Day Task Cards-Card #2

Fill in the blank:

Instead of using plastic water bottles, I can _____.

Earth Day Task Cards-Card #4

List three ways that you can help conserve energy at home.

Why is it important to bring re-usable shopping bags to the grocery store?

Earth Day Task Cards-Card #1

Suppose that you saw a friend throw a pop can in the trash instead of the recycle bin. What could you say to your friend?

What is one thing that our school could do to help the Earth even more than we already do?

Earth Day Task Cards-Card #8

Write one or two facts that you know about composting.

Earth Day Task Cards-Card #5

Why are trees important to our Earth?

Earth Day Task Cards-Card #24

List two ways that you could re-use a cardboard box.

Earth Day Task Cards-Card #21

Created by Shelley Gray

Looking for a way to incorporate Earth Day into your regular classroom routine? These task cards are ideal as a center activity in your classroom, or even an early finisher activity!

This resource includes:

Twenty-four task cards to that will get students thinking about the environment around them and what they can do to help. Recording sheets are also included.

<p>Earth Day is celebrated on April 22. About how many months or days are there between your birthday and Earth Day?</p> 	<p>List 5 items that you can recycle.</p> 
<p>Conserving water is an important part of taking care of our Earth. What are two ways that you could save water at home?</p> 	<p>What are three ways that your school or classroom helps the Earth stay healthy?</p>
