**CODE WHEEL**

It's Halloween night and you are trick or treating with your best friends. Your dog Sparky is also tagging along for the night. Suddenly Sparky starts barking and running down the street as fast as he can. But he doesn't stop there. "Oh no," you say to your friends. "He's heading for the old Monroe place." Before you can catch up to him, Sparky has jumped through a broken window and run right into the old abandoned house at the end of your street. Mrs. Monroe used to live in the house but it has been empty now for ten years. The kids at school say the house is haunted, but you don't believe them. Sparky, but he's not coming. You're going to go in after him.
