								49	50
							59	60	
									67
							73		
81	82	83	84						
91			94						

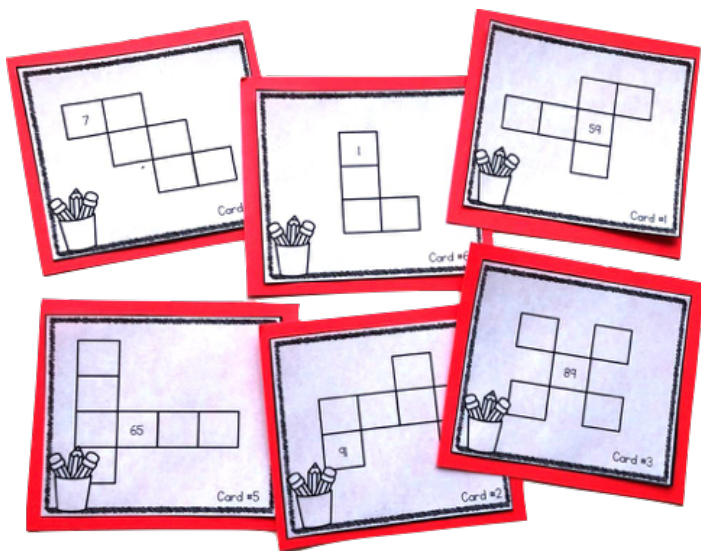

A low-prep math station to enhance
number sense

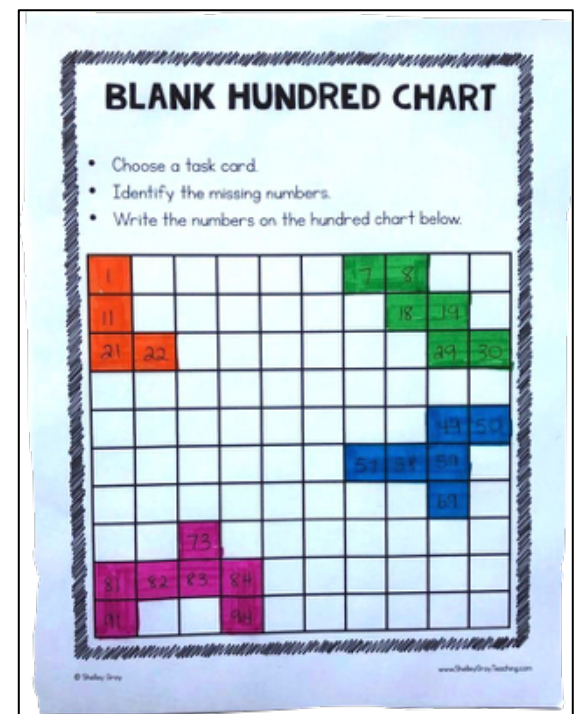

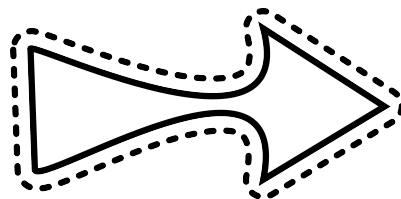

About This Resource:

This is a fun, low-prep math station that will encourage number sense understanding. Using a 100 chart as their guide, students will work with 10 less, 10 more, 1 less, and 1 more.

This station is a great addition to your place value unit. It can also be used as an assessment tool to get a snapshot of your students' number sense understanding at the beginning of the school year.

Choose a task card and identify the missing numbers.

Fill in those numbers on the blank hundred chart.

Once all sixteen task cards are finished, use the filled in hundred chart to complete the follow up page!
