

DIGITAL MYSTERY PICTURES: ROUNDING WITHIN 10,000

NEAREST TEN, HUNDRED, & THOUSAND

TEN DIGITAL MYSTERY PICTURES FOR USE
WITH GOOGLE SHEETS™

SHELLEY GRAY

About This Resource

This digital resource is in Google Sheets™ format, making it compatible with Google Classroom™. This resource is only intended for digital learning; there is no PDF document included.

There are **ten digital mystery pictures** included in this resource. Each one reinforces rounding within 10,000 in a fun way.

How Do Digital Mystery Pictures Work?

Students will fill in the answer for each question in the Google Sheet. Each time they fill in an answer correctly, part of the mystery picture will be revealed. If the student types the wrong answer, the box will turn red and they will try again. This makes this resource completely self-checking. Once all the answers are filled in, the mystery picture will be completely revealed.

Round each number to the nearest 10. Type your answer into the blank box to reveal the mystery picture.
